

International practices in Low Level Waste (LLW) Disposal: El Cabril Facility

Mr Emilio García Neri of ENRESA (Spain) will discuss current international practices in LLW disposal at a talk hosted by the ANA at 1pm on Friday 29th of June 2013 in the AINSE Theatre, New Illawarra Rd, Lucas Heights.

Mr Neri's talk will showcase the experiences of ENRESA's El Cabril Facility, considered by the United States Nuclear Regulatory Commission to be one of the best radioactive waste disposal facilities in the world.

For details on the presentation please see the Events section of the ANA's website:
